Ref.: Ms. No. TIM-24-00567R2

An IoMT-based Wearable Thermography System for Early Breast Cancer Detection
IEEE Transactions on Instrumentation & Measurement

Dear Dr. Elouerghi,

I am pleased to advise that your paper, referenced above, has been accepted for publication in IEEE TIM. Please consider and incorporate any final comments suggested at the end of this e-mail (if any), by the Associate Editor and reviewers in the final version of your manuscript.

Please send the following within two weeks directly to Ms. Laura Roach at the following e-mail address:

lauralynnroach@gmail.com

One file for each item will assist with final file processing.

1A. The final version of your manuscript sent by e-mail. The publisher can use Microsoft Word, TeX, or plain text files. Please consider that IEEE supports the publication of author names in the native language alongside the English versions of the names in the author list of an article. Instructions on how to prepare the final version of your manuscript are included at the end of this letter.

1B. IEEE also requires a clean PDF, with black text only (include tables and figures) and all authors listed in the byline for publishing your article in the early access area on IEEE Xplore.

2. A file containing author responses to the final comments of reviewers and the associate editor (if any) and a list of final changes made to the manuscript.

3. Optional: A photograph and short biography for each author. The publisher is able to use tif, ps, or eps files.

4. A set of original figures and tables, one per page, larger than the final size.

5. A separate list of figure captions and table titles.

6. A list of five to eight keywords (required by IEEE).

Timely response to this e-mail helps to expedite publication of your manuscript. If you have any questions regarding this matter, please do not hesitate to contact Ms. Roach.

**** OPEN ACCESS ****

IEEE TIM is a hybrid journal, allowing publication of either conventional articles or Open Access (OA) articles. If you have not done it at submission time, you can still request that your article be published as Open Access, by informing Ms. Laura Roach. By requesting this, you commit to pay the OA fee mentioned on IEEE TIM's website: <http://tim.ieee-ims.org/content/regular-papers>

Any other applicable charges (such as the over-length page charge and/or charge for the use of color in the print format) will be billed separately once the manuscript formatting is complete but prior to the publication.

Author Names in Native Languages

IEEE supports the publication of author names in their native language alongside the English version. Chinese authors may use either Simplified or Traditional characters. Authors must provide the native language name in Unicode characters to be displayed in the byline of the article, in parentheses, after the English version of the name.

The manuscript can be prepared using the "Insert Symbols" list in Microsoft Word or the CJK Ascii Unicode for LaTeX. It is essential that you carefully check any article proofs you receive prior to the publication of your paper to verify the correct rendering of the names.

Fonts:

The following font styles will be used when rendering Chinese, Japanese, or Korean characters in the final publication:

Simplified Chinese: SongMT
Traditional Chinese: SungMT
Japanese: MS Mincho
Korean: Batang

Preparing a Manuscript for Submission**Microsoft Word:**

Submitting a CJK name in your MSWord manuscript is straightforward using the "Insert Symbols" feature. Simply add the characters in parentheses after the name of each author who would like to have their name shown in their native language. To avoid potential problems, please use the standard CJK Microsoft fonts for the characters.

LaTeX:

IEEE requires that you provide CJK Ascii Unicode for Chinese (traditional or simplified), Japanese, Korean, etc..

For submissions in both MSWord and LaTeX, please ensure that:

1. The manuscript's MSWord document or LaTeX file contains the proper characters.
2. The cover letter states that the manuscript contains author names in native language characters. Please, specify which language you used

IMPORTANT: Be sure to carefully check the rendering of the native language name in your article during article proof review (prior to final publication).

For more information, please visit the IEEE Author Digital Tool Box at the following URL:

http://www.ieee.org/publications_standards/publications/authors/auth_names_native_lang.pdf

Again, congratulations on this good work, and many thanks for submitting this manuscript to IEEE Transactions on Instrumentation & Measurement.

With kind regards,

Daniele Fontanelli, Ph.D.
Associate EiC
IEEE Transactions on Instrumentation & Measurement

Comments from the Editors and Reviewers:

In compliance with data protection regulations, you may request that we remove your personal registration details at any time. (Use the following URL: <https://www.editorialmanager.com/tim/login.asp?a=r>). Please contact the publication office if you have any questions.

Dear Mrs. Laura Roach,

I hope this message finds you in good health!

Following the previous email from Mr. Daniele Fontanelli, Associate Editor-in-Chief, please find attached all the required documents. We have decided to opt for conventional articles publication.
I remain at your complete disposal for any further requests, Mrs. Laura Roach.

Please accept, Mrs. Laura Roach, my sincerest regards.

Achraf

Hello Mrs Laura,

Thank you for your email. I confirm that all the files have been grouped into a zip file as requested. You will find this file attached.

Best regards,

Achraf
